

FIBRE OPTIC THROUGH ADAPTERS

JCS Technologies range of high quality zirconia sleeve through adapters includes all the most common types in reduced flange style for easy patch panel integration.

Stock standard U/PC and A/PC with Unibody or two piece design in range of colours. The performance of the adapters have been carefully designed to meet the toughest Telcordia standards.

All adapters come with high quality dust caps which can also be purchased seperately if requiring extra. Both inner and outer shutter options are available upon request.

A wide range of adapters are offered to cover standard, legacy and specialty fibre connectors and in a range of mounting configurations and colours.

LCD/LCQ/SC/SCD
